

SIR SYED UNIVERSITY OF ENGINEERING & TECHNOLOGY

COMPUTER SCIENCE DEPARTMENT

ARTIFICIAL INTELLIGENCE (CS-325T)

QUIZ: 2 & 3

Name:

Semester: 6th

Roll No:

Batch: 22F

Section:

Max Marks: 07

Q1: Convert English Statement into First Order Logic from the following Statement:

1: Every bird has feathers.

2: There exists an animal that is both a mammal and wings.

3: Every Employee has a manager.

4: There exists an Author who has written a book on AI.

Q2: Construct a Truth Table for the Compound Statement:

1: $(P \wedge Q) \vee (\neg P \wedge \neg Q)$

2: $((P \rightarrow Q) \wedge (Q \rightarrow R)) \rightarrow (P \vee R)$

Q3: Identify Whether the Compound proposition is a Tautology, Contradiction OR Contingency using a Truth Table:

1: $(P \Leftrightarrow Q) \vee (\neg Q \wedge R)$

2: $(A \vee B) \wedge \neg C$
