

SIR SYED UNIVERSITY OF ENGINEERING & TECHNOLOGY

COMPUTER SCIENCE DEPARTMENT

ARTIFICIAL INTELLIGENCE (CS-325T)

QUIZ: 2 & 3

Name:

Semester: 6th

Roll No:

Batch: 22F

Section:

Max Marks: 07

Q1: Convert English Statement into First Order Logic from the following Statement:

1: Every Person who owns a car and has a driver.

2: Every cat is an animal.

3: There is a teacher who teaches math.

4: All humans have hearts.

Q2: Consider a Dataset having two variables height and weight and each point is classified as Normal and Underweight.

Weight	Height	Class
51	167	Under Weight
62	182	Normal
69	176	Normal
64	173	Normal
65	172	Normal
56	174	Under Weight
58	169	Normal
57	173	Normal
55	170	Normal

Q) On the basis of the data given we must classify the below set as Normal and Under Weight using KNN Algorithm:

k =3 a= 57 b= 170
