

SIR SYED UNIVERSITY OF ENGINEERING & TECHNOLOGY
COMPUTER SCIENCE & INFORMATION TECHNOLOGY DEPARTMENT

Spring 2026
Software Quality Assurance & Testing (CS-468)
Assignment # 2

Semester: VIII
Announced Date: April 15, 2026
Total Marks: 3
Instructor Name: Farhana Ashraf

Batch: 2022F
Due Date: April 23, 2026 for all sections
Marks Obtained:

- Instructions:**
- Attempt all parts of the question.
 - All parts carry equal parts.
 - Submit your **handwritten** assignment in form of hardcopy **in person**. Use **A4** size paper to solve the assignment.

CLO #	Course Learning Outcomes (CLOs)	PLO Mapping	Bloom’s Taxonomy
CLO 2	Write and Use test cases to evaluate functional and non-functional specification requirements for various test types /levels / techniques and types of information systems and technologies.	PLO_4 (Design/ Development of Solutions)	C3 (Applying)

- Q1. [3 mark]
- (a) A mail-order company selling flower seeds charges £3.95 for postage and packing on all orders up to £20 value and £4.95 for orders above £20 value and up to £40 value. For orders above £40 value there is no charge for postage and packing. If you were using equivalence partitioning to write test cases for the postage and packing charges what valid and invalid partitions would you **discover**? Write test cases using boundary value analysis.
- (b) A courier company provide its services across the country only. They do not offer international shipments. For gold card members, transactions over 80 dollars are entitled for free delivery provided that the parcel weight is below 10kg. **Construct** decision tree and decision table to **identify** the business rules. Also **write** positive test cases based on the identified business rules.
