Free

Calculation

Users input processes, and the app calculates completion, turnaround, and waiting times

No Steps Explanation

Direct calculation results are displayed without a detailed explanation of each step.

No Gantt Chart

The free version does not include a visual Gantt chart representation of the process schedule

Pro

Calculation

Users input processes, and the app calculates completion, turnaround, and waiting times

Step-by-Step Explanation

Detailed breakdown of each calculation step, providing transparency and educational value.

Gantt Chart Visualization

Visual representation of the FCFS scheduling using a Gantt chart for better understanding.
